

WESEM

additional lamps

138 x 78

HM1

*halogen H3
fog and driving lights*

lamp cover

installed upright or upside down

Construction and parameters

Application

To be mounted at the front of the car or truck.

Designed especially for the cars with small recesses in the bumper.

General information

Firm mounting snaps permit easy assembly and assure positive mounting.

Construction

- metal reflector
- black plastic housing
- glass lens
- mounting bracket with screws
- lens cover
- bulb (option)

Lens colour

Halogen lights are manufactured with clear or amber lens.

Additional features

Mounting and adjustment system permits easy and accurate 3D aiming.

Bulbs

Fit bulbs type:

H3 12V 55W or H3 24V 70W

Additional equipment

The wires are tipped with F/6,3 and A-2,5 terminals.

Recommendation

The products of series HM1 have been replaced by HM2 line, offering better IP rating.

Parameters

The driving light reference mark, which specifies the light's maximum luminous intensity is 12.5 (it is about 60 lx within distance of 25 m).

Mounting methods

They can be installed on a vehicle in an upright or upside-down position.
